Signature: _____

Membership agreement

(The Organisation) _____

supports the aims of No to Violence (NTV) and agrees to comply with the Rules of the Association¹.

The Organisation agrees to support and/or work in line with the following principles for specialist men's family violence work:

1. Victims/survivors' freedom and safety underpins all interventions with men who use family violence.
2. Specialist men's family violence work demonstrates an understanding of the dynamics of family violence and is informed by the needs of victims/survivors, including children.
3. Specialist men's family violence work creates opportunities for men to take responsibility for their behaviour and offers support for men to identify and make non-violent choices in their current and future relationships.
4. Risk assessment and risk management processes are robust and align with the jurisdiction's required risk assessment and management frameworks.

The Organisation will comply with the minimum practice standards outlined in *Men's Behaviour Change Group Work: A manual for quality practice*² when conducting any group work with men who use family violence and in all other specialist men's family violence work, insofar as they apply.

NTV will monitor members' compliance with the Rules, guiding principles and the minimum practice standards. Complaints received by NTV about any member's non-compliance will be investigated and their membership reviewed by the NTV Board of Directors.
